Description

Turning Your Dollars into Real Impact. Since 1981.

IMRC has been working for over four decades to support Muslims and minorities in India. We fund education, healthcare, water access, economic programs, and emergency relief.

With 100+ partners on the ground, we run year-round projects—building schools, funding scholarships, running hospitals, digging wells, and delivering food aid. Every dollar goes where it's needed most, creating real, measurable change.
