Description

Randy P. Davenport

Attorney at Law

Experience is key when you walk into a courthouse. Without it, you can get lost in the throngs of defendants and rushed through the system without being given an opportunity to tell your side of the story. The faces are unfamiliar, and the court clerks, prosecutors, and judges don't know you from Adam. With an experienced, highly skilled attorney by your side, however, you will not be shuttled aside and treated like a number. A respected attorney knows who to talk to and how to proceed through the chaos — all while shielding you from being exploited by the system.

"As your attorney, your goals are my goals, and I want to help you achieve them."

You Have the Right to Zealous Representation

Under the constitution, all defendants have the right to have a lawyer assist them in their defense. This includes cases that are seemingly less serious than others, like driving under the influence (DUI). This is an offense that entitles you to a strong defense in court.

Taking these offenses lightly is a mistake — admitting guilt outright or simply paying the fine is a big miscalculation.

Law Office of Randy P. Davenport, Esq. is the One to Call

At the Law Office of Randy P. Davenport, Esq., founding lawyer Randy P. Davenport has successfully defended individuals facing the most serious legal issues. For years, he took on difficult cases with confidence — in the process, gaining the respect of the judiciary, prosecutors, his peers, and courthouse personnel.

Now, Attorney Davenport wants to help people like you — upstanding citizens who have been charged with municipal court violations. He will bring his years of experience as a hard-fighting trial attorney to bear in your case — thoroughly investigating the charges against you, fully preparing your case for trial, and proceeding into the courtroom unafraid to stand up for your rights and reject bad plea deals that are not in your best interest.
