Description

We are NABIC, a nonprofit 501 (c) (3), non-partisan organization that primarily aims improving the overall conditions of the people of Bangladesh and North America through a unique, holistic approach. Since our establishment in 1990, we have strived to work based on the proverb “think globally; act locally” in hopes of changing the living conditions of the underprivileged around the world by doing the most we can here at home.

Over the years, NABIC has expanded to serve more communities, becoming a premier organization committed to uplifting the circumstances of those in need, while prioritizing the needs of the most vulnerable of those societies, irrespective of race or religion. Through ongoing projects in nearly every field, ranging from healthcare to education to poverty alleviation and emergency relief/rehabilitation, NABIC strives to cover every base of improvement, highlighting the holistic approach we have adopted. NABIC is managed by a dynamic board of directors of diverse professional backgrounds, who represent multiple states across America. We look forward to working with the concerned citizens of our society to improve the lives of those around the world.
