Description

Mission

To be an exemplary community based upon the Prophetic model, reflected in the American context, that seeks to enhance inward excellence and outward service to the community.

Vision

To help change the direction of our lives as a community from looking and working for the fleeting to looking and working towards the Eternal. To help each and every person seeking the path laid down by God and illuminated by the Prophet and handed down to us by the practice of our rightly guided predecessors. We desire to be the most beloved of communities to our Lord, and we seek His grace through education, service, building strong families, youth development, and community outreach.
