Description

We’re a husband-and-wife team passionate about sharing our laser-engraved designs, each inspired by our travels and the diverse cultures we've encountered around the world. I’m Rokaya, originally from Marrakesh—a city rich in history, art, and architectural beauty. My husband, Hafeez, is a proud Chicago native, where the spirit of hard work and big dreams runs deep.
Our shared love for travel sparked the idea for Off Kesh. We wanted to create a brand that connects you to the stories, traditions, and artistry we’ve discovered on our journeys. Every product is thoughtfully designed by us, with the hope that it not only brings beauty into your life, but also inspires your own adventures.
Thank you for visiting our store—we're so glad you're here. Be sure to check back often for our latest designs!
